### REDUCE RISK

MEMBERS ARE MEASURABLY REDUCING CARGO CRIME

PROTECT YOUR BUSINESS FINANCIALLY AND YOUR BUSINESS REPUTATION

RANGE OF INDUSTRY STANDARDS RECOGNISED GLOBALLY

SAFEGUARD YOUR GOODS PROTECT YOUR BRAND

## CARGO AND LOGISTICS CHALLENGES

- Today cargo crime is one of the biggest supply chain challenges for manufacturers of goods, not only high value and high risk products but also now commodity and health products and their logistics service providers
- Organized crime rings are operating globally and using increasingly violent attacks on vehicles, premises and personnel to achieve their aims.
- With TAPA standards the industry is fighting back.

- **TAPA** Worldwide has approximately 600 + member companies globally and is governed by three regional entities :

1. **TAPA** Americas
2. **TAPA** ASIA
3. **TAPA** EMEA

## WHO ARE THE TAPA STANDARDS AIMED AT?

- Manufacturers or providers of transport and logistics services for high value products
- TAPA statistics prove that its members are measurably reducing cargo crime compared to the rest of the industry. HVTT (high value theft targeted) asset theft
- TAPA's 600+ member companies include many of the world's leading consumer product brands as well as their logistics and transport providers with combined annual sales of over US\$900 billion, law enforcement agencies (LEA), insurers and other trade associations.

## TAPA PORTFOLIO OF STANDARDS

- TAPA Security Standards (FSR/TSR/TACSS) have been established to ensure the safe and secure transportation, storage handling of any TAPA member's (Buyer's) assets throughout the world.
- The Facility Security Requirements
- The Trucking Security Requirements
- The TAPA Air Cargo Security Standard
- The TAPA standards are reviewed every 3 years.
- Review the TAPA website for the current issue of each standard.

# TAPA FACILITY SECURITY REQUIREMENTS (FSR) STANDARD

## GLOBAL TRANSPORT OF HIGH VALUE AND COMMODITY PRODUCTS

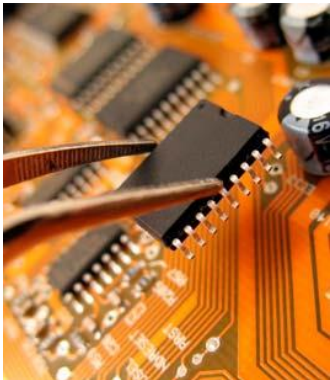

**FSR - AIMED AT TRANSPORT AND LOGISTIC COMPANIES**

**REQUIREMENTS COVERS MINIMUM SAFETY STANDARDS FOR GLOBAL TRANSPORT**

**COVERING SUPPLY CHAINS**

**COVERS PERIMETER SECURITY, ACCESS CONTROL, DOC WAREHOUSE FACILITIES**

**PROCEDURES FREIGHT SECURITY STANDARDS**

## WHAT IS FSR?

- TAPA Security Standards (FSR) was established to ensure the safe and secure transit storage and warehousing of any TAPA members' assets throughout the world.
- Minimum acceptable security standard and the methods to be used in maintaining those standards.
- FSR has 3 levels of security that can be achieved during certification: -
  - A, B or C (A being the highest level of security)
- The level of certification selected depends on the needs of your clients and business

### GLOBAL TRANSPORT OF HIGH VALUE AND COMMODITY PRODUCTS

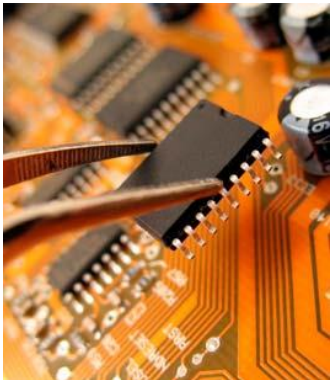

**TSR - AIMED AT  
TRANSPORT  
AND LOGISTIC  
COMPANIES**

**REQUIREMENTS  
COVERS THEFT  
SENSITIVE  
PRODUCTS  
TRANSPORTED  
BY ROAD**

**COVERING  
SUPPLY CHAINS**

**COVERS  
PERIMETER  
SECURITY,  
ACCESS  
CONTROL, DOC  
WAREHOUSE  
FACILITIES**

**TRUCKS &  
TRAILERS**

## WHAT IS TSR AND WHAT LEVEL DO I NEED TO ACHIEVE?

- The Trucking Security Requirements (TSR) represents minimum standards, specifically for transporting products via road within a supply chain.
- TSR Certification divided into two sections which can be described as policy/procedure and practice.
- Model #1: TRUCKING COMPANIES
- Model #2: LOGISTICS SERVICE PROVIDERS
- Minimum of ten trucks are included and maintained in their TSR scheme to be eligible for TSR Certification or
- TAPA TSR Service Partner status.

## TSR CATEGORIES

- I. Small = Carriers with ten (10) trucks or more but less than thirty (30) trucks, four (4) trucks would be inspected by SGS
- II. Medium = Carriers with thirty-one (31) to one hundred (100) trucks, six (6) would be inspected by an SGS
- III. Large = Carriers with more than one hundred (100) trucks, 7% of all trucks must be inspected an IAB

## TACSS (TAPA AIR CARGO SECURITY STANDARDS)

### IMPROVING/MAINTAINING AN EFFECTIVE AIR CARGO SECURITY PROGRAM

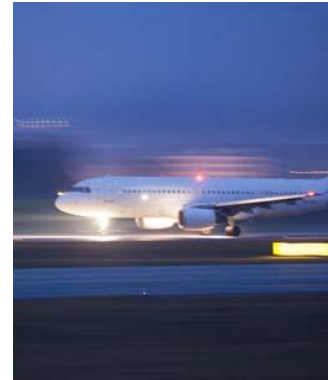

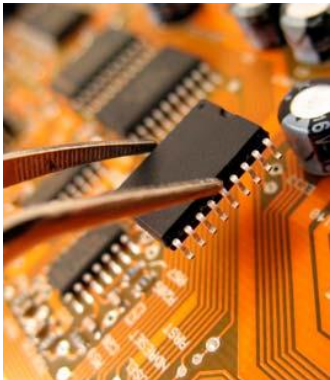

**TACSS** -  
ESTABLISHED  
TO ENSURE  
MINIMUM  
STANDARDS

FOR SAFE AND  
SECURE  
TRANSPORTATION  
OF **AIR CARGO**  
ON AND OFF  
AIRPORTS  
FACILITIES

**ON AND OFF**  
AIRPORTS AND  
AIRPORT  
ASSOCIATED  
FACILITIES

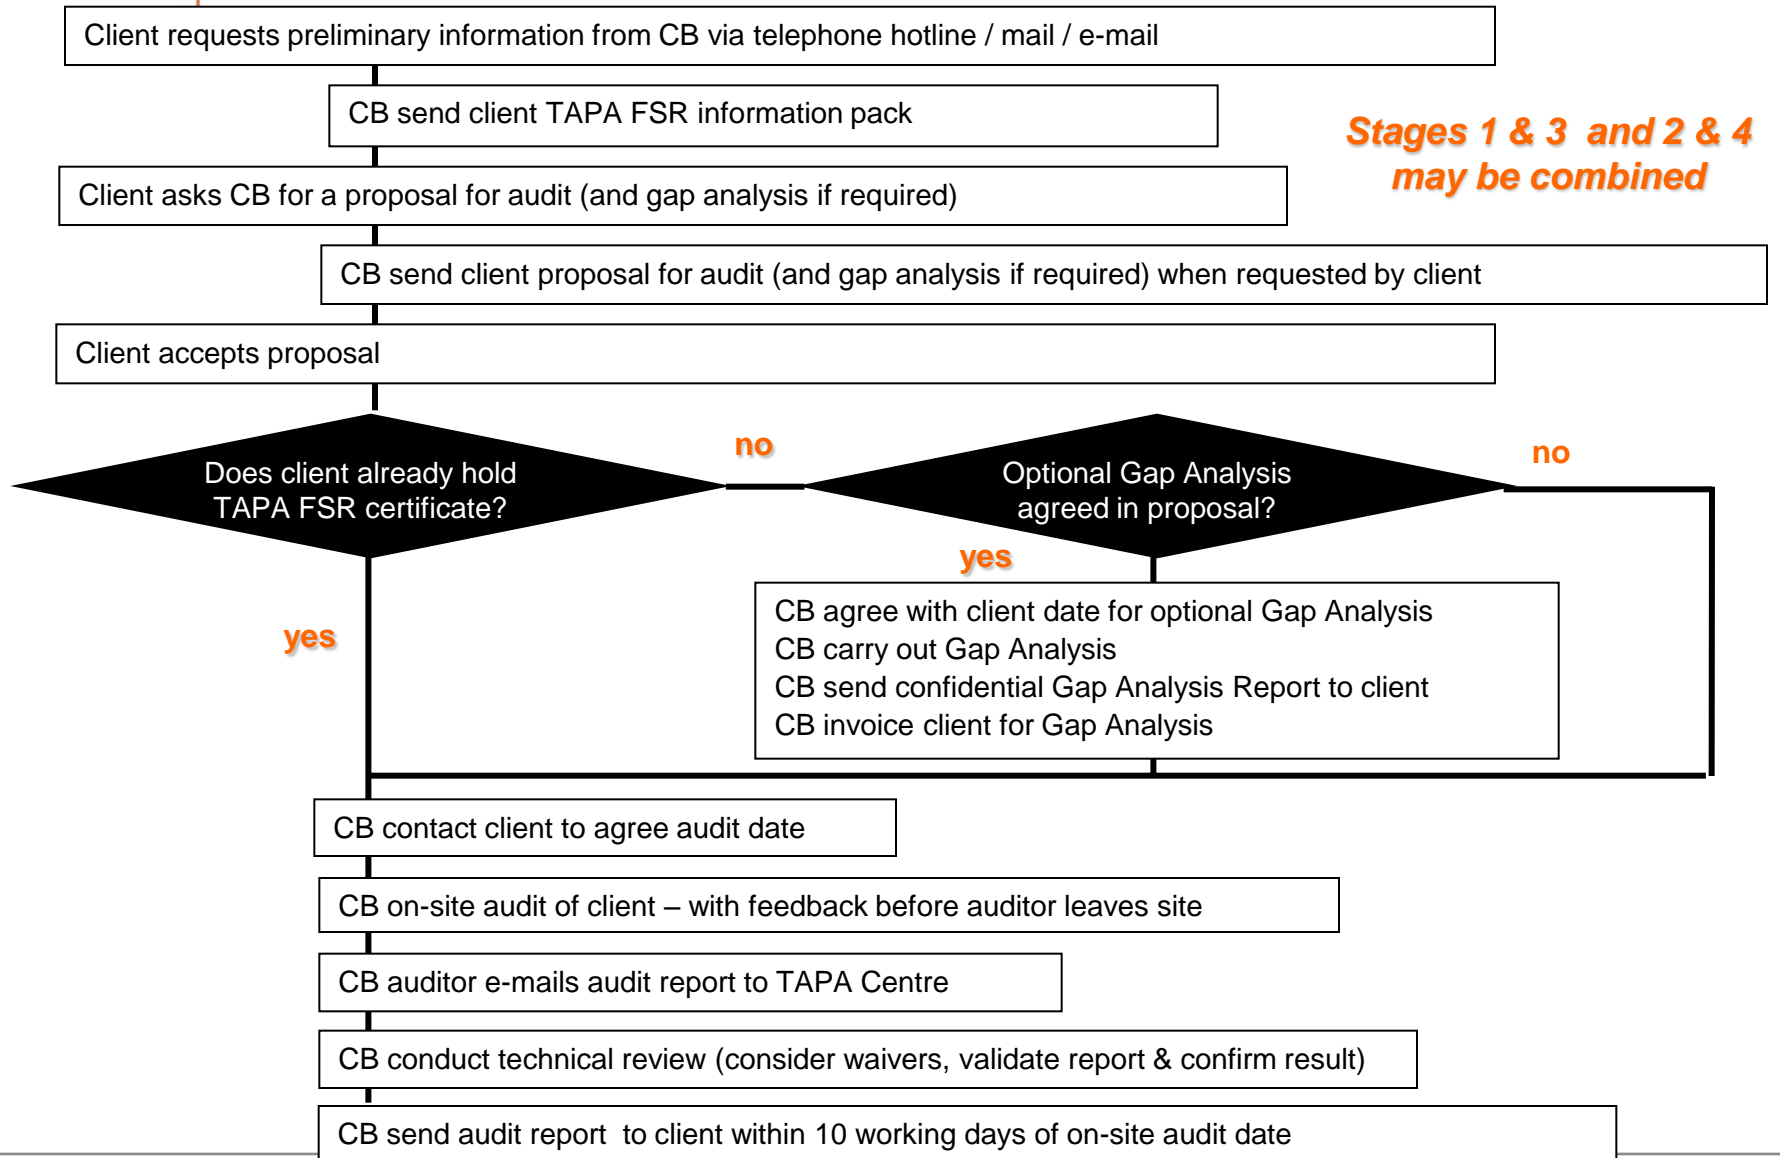

MITIGATE THE  
**RISK** TO AIR  
CARGO  
THROUGHOUT  
THE SUPPLY  
CHAIN

IMPROVE &  
MAINTAIN AN  
EFFECTIVE AIR  
CARGO  
SECURITY  
PROGRAM

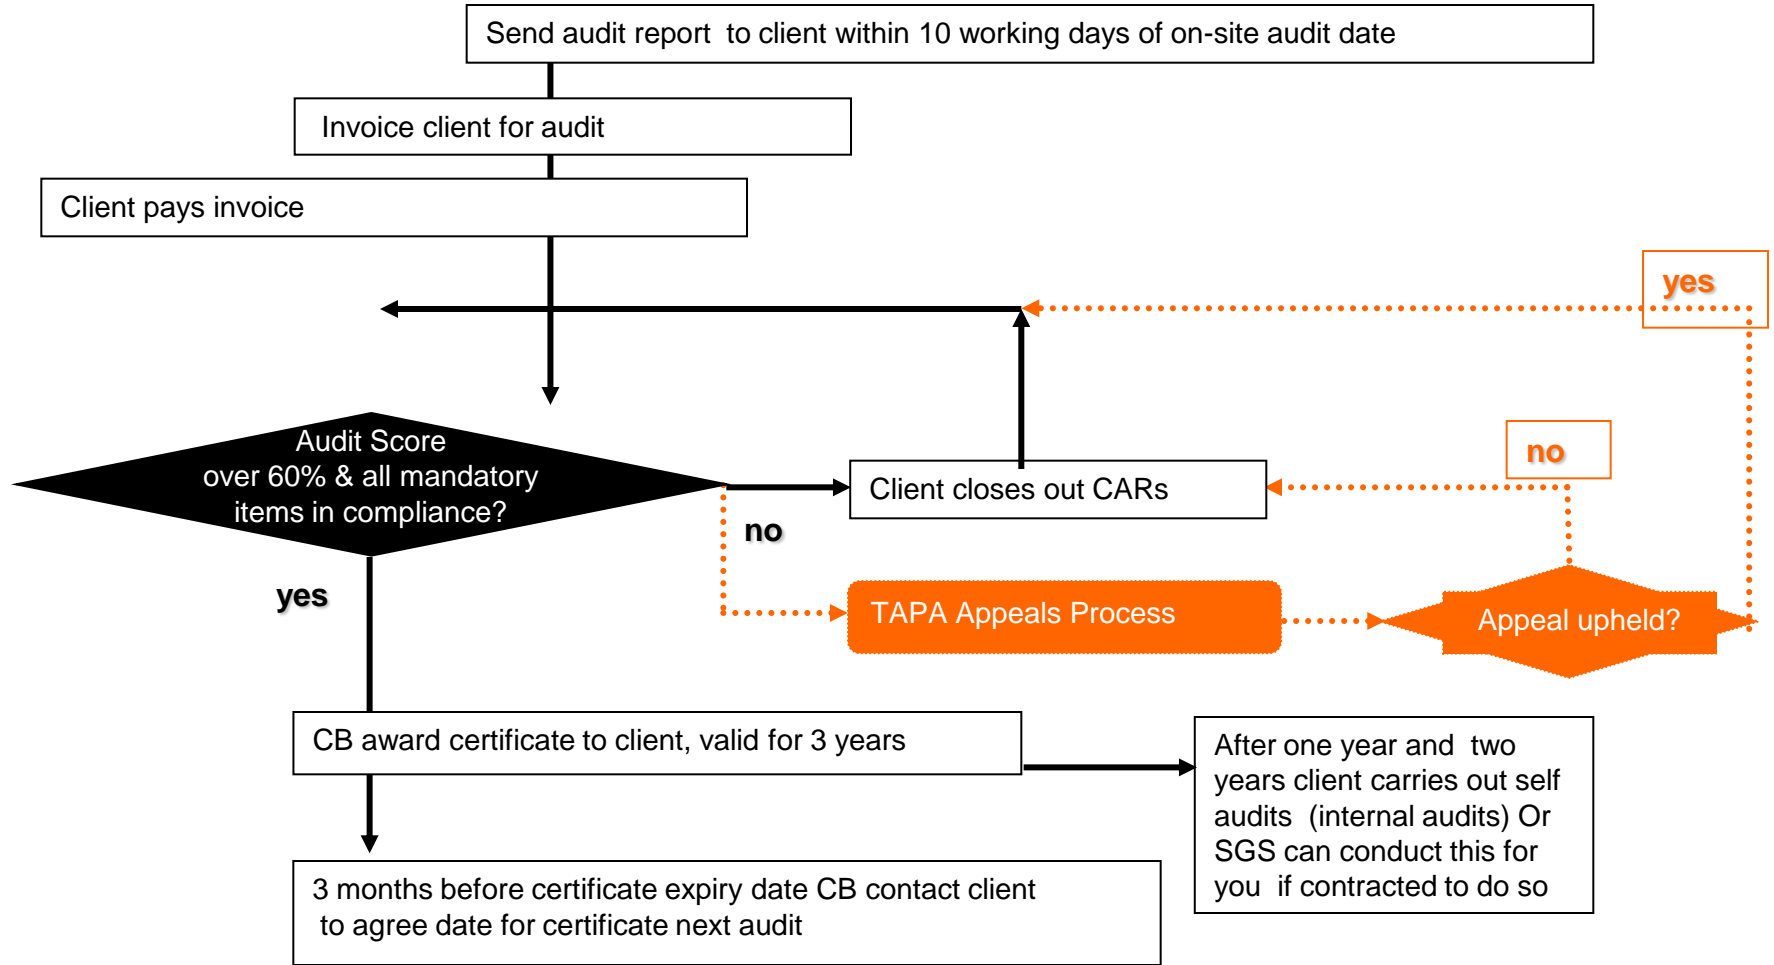

- TACSS consolidates security solutions for air cargo, including best known methods from industry and government compliance programs.
- The TACSS process comprehends threats to cargo that include theft and use of cargo for terrorist purposes.
- The TACSS security level 1 or 2 is calculated by completing the risk-assessment tool.

### WHO ARE SGS ?

**N°1**  
WORLD LEADER

**80,000**  
EMPLOYEES

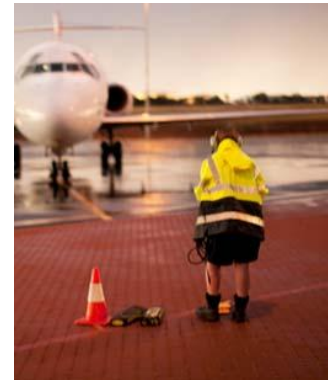

**1,650**  
OFFICES AND  
LABORATORIES

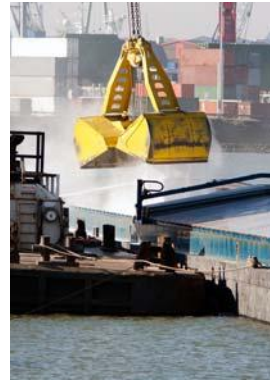

**13**  
GLOBAL  
INDUSTRIES

**GLOBAL  
SERVICE  
LOCAL  
EXPERTISE**

**PASSION**  
**INTEGRITY**  
**ENTREPRENEURIALISM**  
**INNOVATIVE SPIRIT**

### STREAMLINING OPERATIONS AND IMPROVING EFFICIENCIES

#### TRANSPORT

Our expertise in operations means we can advise on risk management suitability, efficiency and traceability

#### STORE

We assist with export controls, international customs data exchange and secured storage support

#### EXPORT

We support freight forwarding by sea, rail and road with innovative solutions and audit, certification and training

#### SHIP

Our services ensure effectiveness and safety within the marine supply chain

#### DELIVER

We provide terminal management, primary processing and secured storage support

#### TAPA & C-TPAT

SGS has expertise in TAPA certification and related services such as C-TPAT

## WHAT MAKES SGS DIFFERENT?

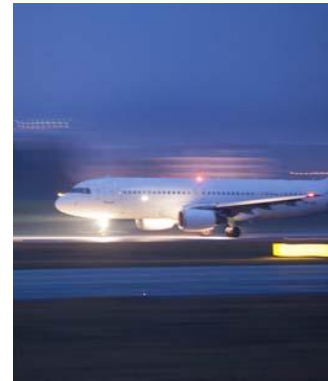

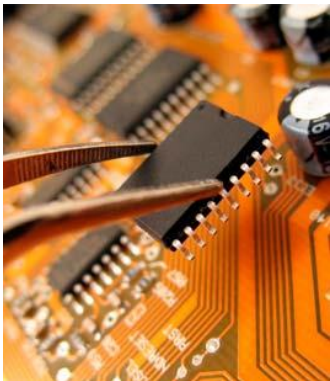

TRUSTED FOR  
**IMPARTIALITY:**  
INSPECTION,  
TESTING,  
VERIFICATION,  
CERTIFICATION  
SOLUTIONS

WORKING  
**ACROSS**  
INDUSTRIES

COVERING  
**SUPPLY CHAINS**

THINKING  
**GLOBALLY,**  
ACTING  
**LOCALLY**

USING THE  
**RIGHT**  
TECHNOLOGY
